Access to Wholistic and Productive Living Institute Inc. (AWPLI) has been working to improve minority infant mortality, healthy lifestyle training, smoking prevention, cessation, advocacy and cancer prevention in Prince George’s County since 2008. AWPLI has an established history of delivering education and outreach to communities on preventive strategies related to infant mortality, heart disease, obesity risk reduction, hypertension and diabetes.

AWPLI intends to increase education awareness and improved behavior of racial/ethnic populations, facilitate dialogue amongst racial and ethnic communities to eliminate health disparities, provide training to improve coalition and advocacy building, offer education sessions to improve healthy behavior to reduce chronic disease and prevent mortality in minority populations. AWPLI will also distribute health education materials in minority focused community events.

For more information about Access to Wholistic and Productive Living Institute, Inc. (AWPLI) and the MOTA program in Prince George’s County, contact Dr. Bettye Muwwakkil, Executive Director (240) 264-0878.
